# Christopher Ryczke

## Software Engineer

Software Engineer with 2+ years of programming experience. Fluent with all object-oriented languages such as Java, C#, .NET, Python, and experienced in web development.

## Projects

### Portfolio Website

March 16, 2026 – April 1, 2026

A portfolio of my projects, consistently updated as time goes on. Features a resume, and built with HTML, CSS, and JavaScript.

## Education

### Computer Programming & Analysis

Durham College

May 2025 – Current

Studying the Computer Programming & Analysis course at Durham College.

## Strengths

**Fast Keyboard Typer**

Fast with hardware, especially keyboards. Will waste no time setting up or fixing any hardware, whether faulty or needed for a job to be done fast.

**Efficient at Learning Multiple Programming Languages**

Quick to study and learn new programming languages. Efficient in Python, C#, and Java primarily, but willing to learn any other languages required.

**Proficient with Database Systems**

Adaptable to multiple different types of SQL (SQL Server, PostgreSQL, etc..) and much like programming languages, can maneuver around many database systems.
